TEACHERS

EARLY CHILDHOOD DEVELOPMENT

Children 15 months to 7 years.

This platform assists **parents** to teach their children the basics

Parents should watch one or two videos daily with their child **OR** print the PDF and do it themselves

BRAIN CONNECTIONS BECOME PERMANENT THROUGH REPETITION

Allow your child to watch videos over and over until they have mastered a concept. Do not skip a video as your child needs all the building blocks.

Once your child has grasped a concept, move on. This prevents boredom.

BrainBoosters is the foundation for your child to succeed in school. Once BrainBoosters has been completed, move on to [Kumon Maths](#), [Mathletics](#) and [Khan Academy](#)
